

High School Moot Court 2017  
Tracy Matthew v State of Ohio  
Errata Sheet

**3/16**

**On page 23, it states that "the consent is limited to the device's browser and search-engine history." In the dissenting opinion of the Buckeye District Court of Appeals decision, page 38, line 28, it states that, "The waiver only allowed for searches of browser and search-engine history."**

**Yet, that particular stipulation does not appear in the schoolwide consent form (page 21) or the Extra-Curricular Device Policy/Student Agreement (page 45).**

The record received from the trial court does not include the page reference of the school policy to only search browser history – the source came from the principal's recollection at the trial.

**What year in school is Tracy Matthews at Harrison High -- Freshman, Sophomore, Junior or Senior.**

The age of Tracy Matthews was not available in the court record.

**3/3**

**On page 23 of the fact pattern, it states that the principal called every participant in the comedy club to the principal's office and immediately searched each one's smart device. Did the principal call each student to his office individually and meet with them separately or did he meet with club participant at one time?**

No elaboration needed.
